The Special Days series looks at some of Australia's important days, the history behind each day, and how Australians celebrate or commemorate the day. Inside each book, you'll find statistics, fun facts and photographs, as well as current information on how each special day plays a part in Australia's rich culture. On 21 March each year, Australians recognise Harmony Day. This is a vital day of action towards the elimination of racial discrimination, that falls within Harmony Week. Discover the value of multiculturalism and the benefits of learning about other cultures.

LEARN ABOUT:

- historical and modern multiculturalism in Australia
- multicultural celebrations, festivals and events
- the importance of preserving language and culture
- forced migration and the movement of people
- the value of cultural difference
- the benefits of eliminating racial discrimination
- responsibility for year-round action against racism

Stevie is eleven and loves reading and sea-creatures. She lives with her mum, and she's been best friends with Andrew since forever. Stevie's mum teases her that someday they'll get married, but Stevie knows that won't ever happen. There's a girl at school that she likes more. A lot more. Actually, she's a bit confused about how much she likes her. It's nothing like the way she likes Andrew. It makes her fizz inside.

- LGBTQ+
- verse novel
- perfect for reluctant middle-grade readers

At Little Island we are proud to represent the best Irish writing for children, teens and young adults. We were founded in 2010 by Ireland's first ever Laureate na nÓg (children's laureate), Siobhán Parkinson. We remain proudly independent and committed to our founding ideals of publishing high-quality writing and illustration for young readers and having an outward-looking, international mindset. Our books have been translated into many languages and published around the world.

AGE RANGE	UPPER PRIMARY TO LOWER SECONDARY
PUBLISHER	LITTLE ISLAND BOOKS
ARRP	\$19.99
FORMAT	PAPERBACK, 224 PAGES, 196x127mm

When Martin Ryan sees a video of his father flying unaided through the air, he realises everything he believed about his life has been a lie. Now his parents have disappeared and Martin discovers something weird brewing in the disused mines of the seaside village where he lives. Something glowing. Something ... egg-like. Someone's definitely been messing with reality. Martin and his friends must do whatever they can to defeat the aliens that threaten the entire human race. Even if it means stealing cop cars, blowing up the mines and turning a paddling pool into a fighter aircraft.

- relatable characters
- wildly twisting plot
- adrenaline-fueled climax

SERIES THE SCIENCE OF FAIRY TALES

GENRE	SCIENCE & NATURE, FAIRY TALES
AGE RANGE	LOWER PRIMARY
PUBLISHER	CAPSTONE PUBLISHING
ARRP	\$21.99
FORMAT	PAPERBACK, 32 PAGES, 254x203mm

- Interest Level: Grade K-3
- Reading Level: Grade K-2

- introduction to the scientific method
- includes science experiments

Fairy tales are filled with magic and unbelievable moments. For example, a princess feeling a pea under 20 mattresses. But can that magic be explained by science? Each book in the Science of Fairy Tales series starts with an entertaining retelling of the original tale. Then curiosity takes over, and the main character uses the scientific method to investigate the truth behind certain details from the story. Using child-friendly experiments, the reader can draw their own conclusions about the fantastical events in their favorite fairy tales.
