GENRE	GEOGRAPHY: NATURAL DISASTER
AGE RANGE	UPPER PRIMARY TO LOWER SECONDARY
IMPRINT	REDBACK PUBLISHING
ARRP	\$29.99
FORMAT	HARDBACK, 32 PAGES, 276x223mm

Drought is one of the natural forces of nature that have shaped Australia's landscapes. In this book, find out how Australia responds to drought, and how farmers and people in cities are all affected when a drought is declared. Droughts, floods, cyclones and bushfires have influenced Australia for thousands of years. Some native plants and animals have even adapted to the unavoidable recurrence of these destructive forces of nature. How is climate change affecting these cycles of nature, and how are Australia's farms, cities and bushland affected?

The world's oceans are as mysterious and remote as outer space. There are large parts of the ocean depths that we know little or nothing about. The animals and plants that live there are weird and alien. In contrast the shallow oceans are home to magnificent corals and fish. Find out about the hidden importance of the ocean and how its movements temperature and contents affect all life on Earth.
